

**IN THE CLAIMS:**

The following listing of claims will replace all prior versions and listings of claims in the application:

1. (Currently Amended) A method of selectively transferring location information of a wireless calling party to a called party, comprising:

establishing predetermined parameters for the transfer of location information associated with said wireless calling party, wherein said predetermined parameters for the transfer of location information comprise preventing disclosure of the location information of the wireless calling party;

receiving a telephone call at a telecommunications network from said wireless calling party comprising at least call information and location information;

retrieving said predetermined parameters for the transfer of location information associated with said wireless calling party; ~~and~~

transmitting said call information and said location information in accordance with said predetermined parameters for the transfer of location information of said wireless calling party to the called party; and

forwarding the telephone call to the called party without disclosing the location information of the wireless calling party, the location information being replaced with a location blocked message, the location blocked message is displayed to the called party.

2. (Canceled)

3. (Canceled)

4. (Canceled)

5. (Canceled)

6. (Previously Presented) The method according to claim 1, wherein said predetermined parameters for the transfer of location information include disclosing less specific data of the location information.

7. (Original) The method according to claim 6, further comprising forwarding the telephone call to the called party with the less specific data of the location information of the wireless calling party.

8. (Previously Presented) The method according to claim 1, wherein said predetermined parameters for the transfer of location information includes instructions regarding replacing the location information with an address information.

9. (Original) The method according to claim 8, wherein the address information is different from the location information of the wireless calling party.

10. (Original) The method according to claim 8, wherein the address information is established by the wireless calling party.

11. (Original) The method according to claim 8, further comprises forwarding the telephone call to the called party with the address information.

12. (Original) A method according to claim 1, wherein said location information is received with the telephone call from the wireless calling party.

13. (Previously Presented) The method according to claim 1, wherein said predetermined parameters for the transfer of location information includes blocking the transmission of calling number identification of the wireless calling party.
